

Automatic Taping

Tool Hire

LEVEL5[®]

WHY HIRE?

If you are looking to level up your career and become an industry leader in your craft, then automatic taping tools could be the answer. There are several benefits to using automatic taping tools versus traditional drylining tools, all of which lead to increased earnings. Whilst hand tools are a craft in their own right, automatic taping tools offer further precision and incomparable speed. Tape and finish your corners and flat walls seamlessly with automatic taping tools.

Automatic Taping Tool benefits include:

- Easier to use, easier to reach heights
- A seamless finish
- A faster method of working
- Quicker to run and perfect
- More time to complete other work, more time to make more money

Purchasing automatic taping tools is an expensive investment into your business. Gypsumtools offer 3 industry leading automatic tool brands for hire, prices start as low as 18p per day, allowing individuals and businesses alike to hire automatic taping tools at a cost saving opportunity or is a perfect option for trialling automatic taping tools before buying.

Hiring benefits include:

- More cashflow friendly
- Delivery and collection are available
- Tools are repaired and serviced at Gypsumtools
- Tools can be quickly replaced if broken
- No middleman, less waiting times

WHY LEVEL 5?

OVERVIEW

Outstanding quality at an unbeatable price, LEVEL 5's latest generation of automatic drywall finishing tools have proven to be the performance leader with unparalleled in-field reliability. These tools are true workhorses backed by LEVEL 5's outstanding 7-Year warranty.

FEATURE-RICH DRYWALL TAPING TOOLS

Although LEVEL 5 is one of the most competitively priced suppliers of drywall mud tools in the world, this does not mean there are any compromises in the design or quality of our drywall tools. Through a culture of relentless innovation, their tools now set the standard for function and durability. Here are just a few of the key underlying features:

- Intentional simplicity - through ongoing direct communication with their finishers, they have worked incredibly hard to simplify the design of their tools so that they are incredibly robust and reliable, but can also be easily serviced on the job site.
- Premium materials - All major components are crafted from aircraft-grade aluminum and high quality stainless steel. The aluminum components are anodized for long-term corrosion resistance
- Outstanding fit & finish - LEVEL 5 tools are assembled to precision tolerances and every tool goes through a fit & finish quality check before it is released for sale
